

HTS Group Capital Projects

- ◆ Project Management & Planning
- ◆ CDM Requirements
- ◆ Process Engineering
- ◆ Electrical & Instrumentation Engineering
- ◆ Control (PLC) Engineering
- ◆ Mechanical Engineering
- ◆ Plant & Mechanical Layouts
- ◆ Construction:
 - E&I Installations
 - Control Systems
 - Process Systems
 - Construction Management

HTS Group Operational Support

- ◆ Permanent On-site Technicians
- ◆ Carry out Breakdown Support
- ◆ On-going Inspection & testing
- ◆ Proof Testing of Safety Systems
- ◆ Implementation & Execution of Maintenance systems & Preventative Maintenance
- ◆ PLC / Control System Engineer to support on-going operations
- ◆ Process / Chemical Engineer Support for on-going operations
- ◆ Complete Engineering Supply chain under one roof

Typical Alliance Strategy

- ◆ Establish Project Management & Planning for Capital Projects
- ◆ On-site Technical Team / dedicated Electrical Technician to support current mechanical teams
- ◆ Establish on-going maintenance and testing requirements
- ◆ Capital project FEED studies for new and ongoing projects and delivery strategy
- ◆ Engineering & Design for minor and major works by HTS dedicated alliance team
- ◆ Develop scope & tender packs for construction packages
